

# JOIN THE WAVES CREW

FIND US ON [HELIX](#) (#46984) AND [WORLDPACKERS](#)

Being at the campground is a lifestyle. We are dedicated to giving all that pass through amazing experiences in a place where pristine bush camping meets a fun, friendly, relaxing, and adventurous lifestyle. Our goal is to grow into a place for all to enjoy our unique beach side location, whether you are one of our international crew or a passing guest.

We achieve this by offering *a work hard play hard ethos*. We prioritise enjoyment in everything we do and are proud to be highly customer focused: we want all visitors to achieve memorable moments. Waves Campground is situated between Goolawah and Limeburners creek National Parks and offers incredible nature experiences and a once in a lifetime chance to improve or begin your surfing journey. **With 4 point-breaks within 10Km and a beautiful headland right in front that offers NE to SE facing beach breaks, there are waves for all abilities. Yew!**

Life here gives you the chance to lead or take part in many activities such as: sunrise surfs with anytime use of our surf equipment, beach games, diving, snorkelling, fishing, local walks, yoga, heading to the pub for live music, nightly socials around a fire and much more. You can chill out on the beach or plan the best Sunday Funday we have yet to experience! And did we mention surfing? Lots and lots of surfing!

We pride ourselves on being very eco and environmentally aware. We are big recyclers and work hard to keep our property clean and looking good. Every month the whole crew joins the local bush- and dune care volunteer group. We spend the morning de-weeding exotic plants, making room for beautiful natives. There is something here for everyone. We encourage our crew to get involved and interact with backpackers and other guests in building an atmosphere and having fun.

**So, will you be part of a cultural exchange in a growing family of internationals who work, live, and socialise together?!** We have spots available for (house) cleaners, groundskeepers/ maintenance, yogi's, artists, hospitality lovers, babysitters, plumbers, builders, gardeners, cooks, entertainers and so much more! Maybe you have something to offer we haven't thought of? Let's chat!

We ask for your help around the campground 4 hours a day, 6 days a week. In return you get 3 great meals and free accommodation in our shared caravan-dorms, or you can bring your own camp gear and lots of play-time.

We require a minimum stay of 3 weeks most of the year (8 weeks for summer Dec & Jan). We find that it's important to give you time to settle in and to be well trained at your chores around the campground. Most importantly, it allows our Waves Crew to be one big, happy family! If all goes well after the first weeks, we are happy to talk about long term stays as well. On average people stay 3 months!

We're so excited to meet you!

Kit and Anna (& baby Ayla) - Managers

Richard - Owner

Aline - Reception

→ Being quite remote we need to have a 'one menu fits all' attitude about our food. We all take turns cooking dinner, so cooking is important and a great family moment of the day! We do 1 food shop a week and since we all eat together, we cannot cater to many different diets/wishes. There are always vegetarian options, but food will be near meat and potentially touch. We can NOT cater to vegans/gluten/ dairy free diets or heavy allergies. We're sorry but it has proven to be too difficult. -

→ Here's a list of skill sets we love to have around:

- o **happy people! The most important thing is that we have fun!**
- o Cleaning
- o Hospitality lovers
- o General maintenance / grounds keeping / gardening
- o Building / Carpenter
- o Yoga teacher / Massage / ..?
- o Painter / Artist / Photographer / Graphic design
- o Electrician / Plumbing / Mechanic / Tiling / Concreting
- o Babysitting for our daughter Ayla
- o ...?
